

Hook & Loop Fasteners

Preferred Provider of Hook & Loop Fasteners.

Boeing Distribution Services has partnered with HALCO Hook & Loop Company to provide our customers flame retardant hook & loop tapes, designed for aerospace interiors and industrial fastening applications.

These are ideal for attaching seat trim, carpeting, interior panels, and more. They can be sewn or applied using pressure sensitive adhesive to simplify assembly, maintenance and future retrofits.

Applications include:

- Seat assembly
- Interior panel attachment
- Wire and cable management
- Carpet attachment

A simple way to streamline your supplier base:

- One source for your hook & loop products
- Warehouses strategically located around the world
- AOG support available 24/7
- Benefit from Boeing Distribution Services' reliability and proven quality

The products are approved to the following specifications:

- FAR 25.853
- FMVSS 302
- A-A-55126B
- OEKO-TEX®
- CAL TB 117
- REACH / ROHS
- CALIFORNIA PROP 65

Available as sew-on or adhesive backed in various FR colors and widths.
