

Aerospace Scotch Tapes & Adhesives

Genuine Scotch™ brand bonding products for every aerospace application.

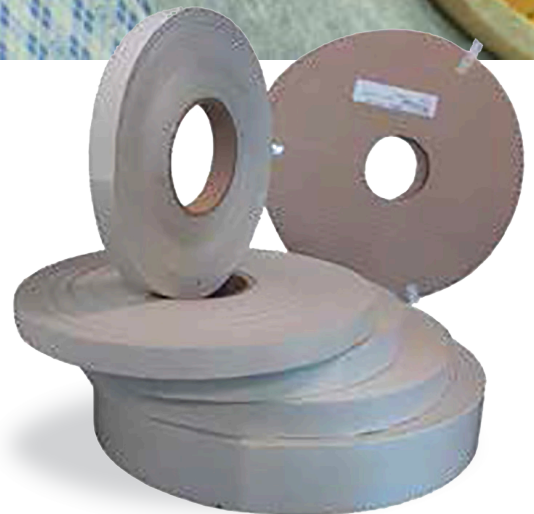

Boeing Distribution Services carries structural adhesives, film adhesives, epoxy and aerosol adhesives in our product range, including one and two component kits, as well as solvent and water-based adhesives — unbeatable for bonding metallic and non-metallic components and composite sandwich structures. We also offer such items as Jet-melt, Scotch-Grip, Scotch-Seal and sprayable adhesive.

A leading provider of Scotch tapes for masking, sealing and insulating. Scotch tapes are known for their excellent abrasion resistance properties, ideal in applications with repeat bake cycles, thermal insulation and sealing. Aluminum tapes offer multiple uses in aircraft masking and in electro-plating. Scotch Tapes protect against aggressive paint strippers, damping and friction. In addition, they have easy release surface properties for use in composite modules.

Simplify your supplier base by relying on Boeing Distribution Services for bonding products:

- One source for more of the parts and products you need
- Warehouses strategically located around the world
- AOG support available 24/7
- Benefit from Boeing Distribution Services' reliability and proven quality
