

MACHINED PARTS & ENGINEERED ITEMS

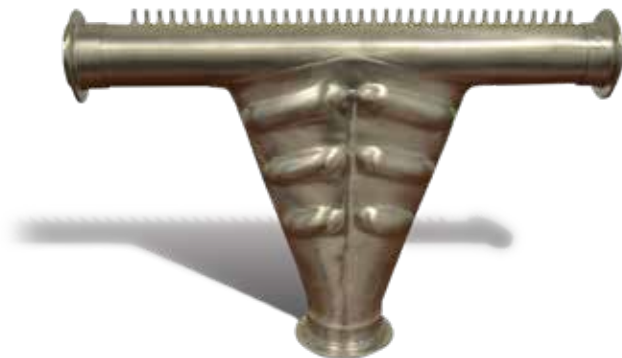

A specialized team to source your OEM & PMA print controlled parts.

Boeing Distribution Services Inc. has a specialized machined parts team to ensure each machined part we provide is in conformance with all quality requirements for customers in the commercial, domestic and foreign military and business jet markets, supporting their production OEM and aftermarket needs.

We partner with customers to select the proper certified vendor for each part — from a small bracket to a large empennage section. And everything we provide can be incorporated into Min/Max, VMI, Web Portal and kitting solutions to minimize costs and improve turnaround time rates.

Working with over 100 manufacturers, Boeing Distribution Services can help create the right part for virtually any need:

- Brackets
- Struts
- Flaps
- Doors
- Frames
- Bulkheads
- Aircraft Skins
- Sensors
- Mounts
- Strakes
- Leading-edge Components
- Support Beams
- Doubblers
- Non-repairable Assemblies
- And hundreds more!

Contact your Boeing Distribution Services representative for help with all your machined parts and print controlled product needs.

Total cost savings and more:

- Lower product costs
- Enhanced purchasing aggregation
- Reduced inventory holding levels
- Improved lead times
- Reduction of vendor base management
- Improved reliability and quality
- Production planning savings
- A support team to ensure your products are sourced and qualified to your requirements
- Multi-source and multi-product solutions for kitting
