

BOEING DISTRIBUTION SERVICES OVERVIEW

Parts and services that free customers to focus on bigger things.

Boeing Distribution Services Inc. focuses on the high-volume, low-cost side of the supply chain, freeing you to focus on bigger things: building airplanes and keeping them flying. With over 1 million parts and products on hand and ready to ship — plus innovative services that reduce time, cost and risk to your operation — Boeing Distribution Services is a true partner for success.

BOEING DISTRIBUTION SERVICES OVERVIEW

Services that improve your operation.

Kitting Solutions

- Consolidation of many parts into a single part number maintaining full traceability
- 40%-70% reduction of inventory on hand, POs and supplier management
- Kit assembly at your facility or ours
- Guaranteed component stocking levels
- Customizable Bill of Materials and delivery containers
- Interactive web-based configuration management

Bin Management Solutions

- Multi-configured custom solutions including JIT, DLF, POU, 3PL, Kanban
- Lower total cost of ownership and inventory investment
- Improved forecast reliability through usage reports
- Quality documents readily available via electronic source
- Maintain reserve stock level at Boeing Distribution Services warehouse

Quality Assurance / Delegated Inspection Authority

- Boeing Distribution Services is authorized by the FAA to inspect incoming parts from all suppliers and ship them directly to your point-of-use locations
- Every product lot undergoes random sample testing based on your requirements to ensure the highest quality
- Allows shipments to bypass quality inspection at your facility, which results in cost and time savings for you

Engineering Services and Technical Tooling Support

- Dedicated team offers the technical know-how to reduce your costs and optimize your performance
- Boeing Distribution Services provides alternatives and upgrades to current application tools and cost-efficient options for hardware installation
- Consulting services and platform-specific technical engineering support

Logistics Services

- Streamlined order and delivery process for complex programs
- Boeing Distribution Services' Quality Delegated Inspection Authority allows parts to be delivered directly to the point-of-use, bypassing your quality inspection

Same-Day/AOG Support

- Same-day shipping available worldwide
- 24/7 AOG service available for select customers
- AOG parts delivered within 24 hours
- Place orders online or by phone
