

WATER JET CUTTING SERVICES

Customized cutting solutions delivered to your door.

When you need custom water jet cutting services, look no further than Boeing Distribution Services Inc. We handle the complete Supply Chain, from procurement of raw materials to custom cutting and finally, direct delivery to your site.

One common usage of water jet cutting is for NTF (non-textile flooring). The NTF is cut to size based on the customers' drawings for use in aircraft lavatories. The addition of a transfer tape to the NTF allows for direct installation on the floor pan.

Water jet cutting technology is suitable for use on a wide range of materials including carbon (CRP) and fiberglass (GRP) for structural parts.

Streamline your supplier base:

- EASA 21/G
- Custom cut a wide range of materials:
 - NTF (Non-Textile Flooring)
 - GFK (Glass Reinforced Plastic)
 - CFK (Carbon Fiber Reinforced Plastic)
 - Aluminum
 - Foam
 - Glass
- Available for materials up to 2000mm x 6000mm
- Single point of contact
- KLX procures the raw material, cuts it to specifications, and delivers it to the point of use
- Short lead time
