

GORE® SKYFLEX® Aircraft Sealant Tape

Environmental Sealants 100 series (with adhesive)
for A320 Wet Area Corrosion Protection

GORE® SKYFLEX® sealants provide many benefits to A320 operators, including:

- Reduces non-routine repairs, decreases MRO costs and enables A320 operators to get the aircraft back into service quicker
- The lightest weight, non-curing, non-hazardous, form-in-place sealant technique
- Provides the high level of durability and protection to reduce corrosion on wet area structures

Airbus references: A320-53-1482 (08BAA9, 14SBA1); A320-53-1483 (08BAA9,14SBA1); A320-53-1484 (08BAA9, 12ACB1, 14SBA1); A320-53-1485 (08BAA9, 12ACB1, 14SBA1)

GORE® SKYFLEX® Aircraft Sealants are qualified to SAE Aerospace Material Specification 3255

- **Material:**
Expanded Polytetrafluoroethylene (ePTFE) non-hazardous material
- **Typical characteristics:**
Highly conformable to surface irregularities
- **Chemical resistance:**
Inert to all common aircraft fluids
- **Storage, without/with adhesive:**
Unlimited/two years
- **Color:**
White or grey and may exhibit varied color within the product
- **Typical applications:**
Access panels, floorboards and windows

During the adhesive tape installation procedure, other consumables might be necessary to perform the job. Please go to the next page for more information.
