

# Henkel Metal Pre-Treatment Solutions.

## Metal pre-treatment: Essential for the longevity of your airframe and aerospace parts.

Before bonding, sealing or painting, aircraft parts require a consistent metal pretreated surface that fulfills all of your process requirements. Boeing Distribution Services stocks Henkel products that include all stages of metal pretreatment from cleaning and degreasing to conversion coating.

## From cleaners to conversion coatings: BONDERITE covers it all.

With more than seven decades of metal pretreatment experience, Henkel's BONDERITE solutions cover all steps of the surface treatment process: Cleaners and alkaline etchants for the cleaning phase, deoxidizers and desmutting products for the activation phase and conversion coatings for the surface treatment phase.

### STEP 1

**CLEANER**  
BONDERITE C-AK  
6849 AERO  
**P/N: 596965**

### STEP 2

**ETCHANT**  
BONDERITE C-AK  
EC-202L AERO  
**P/N: 595479**

### STEP 3

**DEOX**  
BONDERITE C-IC  
DEOXDZR 6MU AERO  
**P/N: 594818**

### STEP 4

**COATING**  
BONDERITE M-CR  
600 RTU AERO  
**P/N: 595387**
