

# Wire Management Products

More wire management products — and more expertise

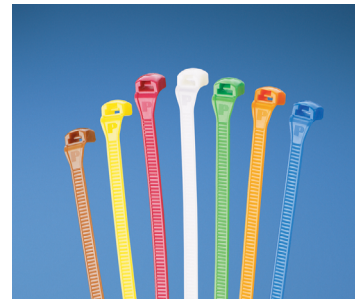

From cable ties and spacers to lacing tape and expandable sleeving, Boeing Distribution Services offers wire management products for all major aircraft platforms — including Boeing, Airbus, Bombardier, Embraer and Sikorsky. When your Supply Chain and Engineering teams are looking for a solution to increase reliability, reduce weight or improve installation processes, our dedicated wire management team has the expertise to identify the best options for your specific requirements.

We are an approved distributor for the world's major cable tie and lacing tape product manufacturers, including:

- Panduit
- Western Filament
- Hellermann Tyton
- Thomas & Betts
- Avery Dennison
- Act Fastening Solutions
- Bay State Cable Ties
- Breyden Products

## A simple way to streamline your supplier base:

- Reduced waste and lower consumption costs
- Reduced labor and installation time
- Less Foreign Object Debris (FOD)
- Reduced risk of abrasion to wire bundles
- Lower total cost of ownership/manufacturing
- One reliable source for more of the parts and products you need
