End User Statement

Dear Customer,

Boeing Distribution Services Inc. and its subsidiaries (collectively, "Boeing Distribution Services") support export control laws that are an important part of global anti-proliferation efforts. These controls can restrict what is sold, to whom and how transactions are conducted. As a Boeing Distribution Services customer, you are an important part of this compliance effort.

Export controls that can apply to Boeing Distribution Services sales include those of the United States, the European Union, Singapore (SG) and Australia (AU). Particularly important laws are the U.S. International Traffic in Arms Regulations (ITAR), U.S. Export Administration Regulations (EAR), European dual-use regulations, SG Strategic Goods Control Order, and the AU Customs (Prohibited Exports) Regulations.

These regulations define, among other things, certain license requirements that can be triggered by product itself, the end-user or the end- use.

As part of your express consideration for purchasing Boeing Distribution Services products, you agree to provide Boeing Distribution Services with a certification as to who will use Boeing Distribution Services products, and how and where they will be used. Boeing Distribution Services will rely on your certification to make important export license applications, as needed. Therefore, you agree that you will carefully review and complete this certification. As part of this, we ask that you review the included explanations and sign the explanation page indicating that you have reviewed that important information.

You also agree that you will keep Boeing Distribution Services informed of changes (for example, a new end-use) and update this certification so that Boeing Distribution Services can meet these regulatory requirements.

As you review this certification and its attached explanations, please contact us with any questions. Going forward, if you have changes or questions, please let us know. Boeing Distribution Services is relying on its close teamwork with you, our customer, to make sure that all sales are consistent with these important export controls.

Absent changes that may require a change to the certificate before that time, Boeing Distribution Services will ask you to renew this statement on a periodic basis.

Thank you very much for your assistance in achieving this important and mutual compliance goal.

Company Name: Click or tap here to enter text.

Address: Click or tap here to enter text.

City, State & Country: Click or tap here to enter text.

Is your company owned in whole or in part by any government or government-owned entity? Yes No

If yes, please describe such ownership (i.e., identify specific owners & ownership percentage). Click or tap here to enter text.

Proposed Use of Boeing Distribution Services supplied products (please select):

NOTE*** In this section we are asking what your business does with the parts you buy. This is not for a single order but rather a description of what your overall business model is. There're two categories: „Own use / End-User“ which means you use the parts you buy to make or repair something else. (e.g., Maintenance or repair of Aircraft, automobiles, or trains or in the manufacture of sub-assemblies). Or „Distributor / Reseller“ which simply means your company resells them to other customers.

We are: Choose an item. **of the goods supplied by Boeing Distribution Services.**

If you selected “Own Use / End-User” please provide a description of the end use (please see examples in above note): Click or tap here to enter text.

Mandatory for Distributors / Reseller (please check all applicable)

Distribution within U.S.

Distribution within EEA (European Economic Area)

Distribution outside of U.S. or EEA

NOTE*** If you selected outside US or EEA, please continue the distributor question on the following page. If you did not select „Distribution outside of U.S. or EEA“, please proceed to the next section.

End User Statement

We certify that this statement is true and correct to the best of our knowledge and we do not know any additional facts that are inconsistent with this certification. We also certify that we will not re-sell or re-export Boeing Distribution Services supplied products contrary to applicable export controls laws, including applicable trade sanctions or controls of the U.N., the E.U. and the U.S.A. Finally, we certify that we are not the subject of any sanctions administered or enforced by the U.N., the E.U., or the U.S.A.

We understand that these laws may change from time to time. We also agree to keep Boeing Distribution Services informed if there are changes to this certification or underlying information so that we and Boeing Distribution Services can meet our respective compliance obligations.

We understand that this certification is part of the express consideration we provide to Boeing Distribution Services for sale of its products.

End User Statement

(1) Nuclear activities:

This means research on or development, design, manufacture, construction, testing or maintenance of any nuclear device, nuclear reactor, critical facility, facility for fabrication, conversion, processing or storage of nuclear fuel, components thereof, or other similar activities,

or

nuclear explosive activities (research on or development, design, manufacture, construction, testing or maintenance of any nuclear device, or components or subsystems of such device),

or

any activity relating to maritime nuclear propulsion plants, their land prototypes and facilities for their construction, support or maintenance.

(2) Chemical or biological weapons activities

This means the design, development, production, stockpiling or use of chemical or biological weapons or their precursors (such as chemicals or toxins).

(3) Weapon delivery systems (rockets, missiles)

This means design, development, production or use of weapon delivery systems, such as rockets and missiles, including (but not limited to) ballistic missile systems, space launch vehicles, sounding rockets, unmanned air vehicles including cruise missile systems, target drones, and reconnaissance drones.

(4) Military activities

This means research, design, support, development, use, construction or any other activity regarding weapons, articles of war, defense articles, munitions, or technologies specifically modified or designed for military application of any sort. Military end users can include national armed services (army, navy, marine, air force, coast guard), as well as national guard and national police, government intelligence or reconnaissance organizations, paramilitary organizations, or any person or entity whose actions or functions are intended to support military end-uses or activities.
